

SMA LUNCH MEETING

THE FUTURE OF AGGREGATES in 3-Coat Stucco: PART I

SPEAKER: BRAD BENSON

PRESIDENT OF SQUIRES-BELT MATERIAL CO.
& MONOLITE STUCCO PRODUCTS, SAN DIEGO, CA

With the housing market and economy in a major slowdown, three-coat stucco ingredients are in a state of free supply. Will we ever see the shortages and allocations experienced in the past? The answer is yes, but what is being done to prepare for that eventual upturn in business?

Brad will report on the current & future status of primary stucco ingredients. He'll focus on silica sand, limestone, lime and cement as well as comment on important legal and environmental trends in our industry.

Silica, Limestone, Lime and Cement product representatives will be in attendance for additional question and answer time.

At a later date, Part II will focus on secondary components such as pigment, fly ash, engineered recycled glass and various miscellaneous additives.

date:
Tuesday, April 15, 2008

time:
11:45 AM Lunch Meeting

location:
Antonello's Ristorante
3800 Plaza Drive
Santa Ana, CA
